### The Aqua-Fusion L-Series

In a time when the demand is high for more economical and eco-friendly laundry equipment, Aquawing has answered the call with the development of its L-Series Aqua-Fusion Ozone system.

The L-Series is a state of the art system that offers a sleek compact design, eliminating the need for any special frame or mounting system.

Aquawing's L-Series runs off standard 110v power, eliminating the need for any special outlets or power connections.

With Aquawing's patented Interfusor the L-Series Ozone system gives you the same spectacular savings of the AF tower system. This system has proven to be a valuable addition to the Aquawing family with installs in many major prisons, health care and hospitality facilities through out the United States.

The benefits:

- Easy to operate
- Light weight design
- Compact
- Can be mounted directly to the wall
- Plugs into a standard 110v electrical outlet
- Reduced power consumption
- Optional Variable control available

## L-Series

### Control Box:

- Internal air compressor
- Air flow meter
- Ozone room monitor (standard)
- Variable ozone output control (optional)
- Main power interface to generator
- Signal input from washer

Dimensions: 13" w x 17" h x 6" d

### Ozone Generator:

- Corona discharge
- Internal heat regenerative air dryer
- 1.3 grams/hr @4 SCFH (dry air)
- Universal power supply
  - + Voltages from 110-260 volts
  - + 47-63 Hz.
- LED shows: main power, high temp, variable ozone output (optional) and air dryer status
- Solid state electronic components
- Over current regulation
- Automatic sensing remote 4-20mA ozone output control
- Durable powder coated exterior

**Capacity:** Up to 100lbs/ Hospitality  
Up to 60lbs/ Healthcare facility

**Power:** 110v - 15amp

Power Consumption: 1.7 amps @110v  
Dimensions: 12" w x 17" h x 5" d
